Open Standards and Libre Software in Government

An unparalleled stage for discussing and learning about the concrete plans, policies and actual implementations of open standards and Libre Software (free software/open source) by public authorities across Europe.

Presentations mainly by speakers from public authorities, ministry officials and the European Commission.

A spotlight on case studies including:

- European Regional Innovation Award-winning gnu/LinEx policies of Extremadura by Regional Minister Luis Millan Vazquez de Miguel;
- a presentation of the German Federal Government's Migration Guidelines.
